FROFESSIONAL

Modular Cooking Range Line 900XP Gas Cylindrical Boiling Pan 150lt indirect heat - autoclave

391104 (E9BSGHIRFC)

150-It gas Boiling Pan with pressure switch, indirect heating, autoclave

Short Form Specification

Item No.

Suitable for natural gas or LPG. To be installed on cantilever systems but also incorporates fixing points for bridging. Robust burners in stainless steel with flame failure device and protected pilot light. Exterior panels of unit in stainless steel with Scotch Brite finish. Double jacketed lid made in 2mm thick AISI 316 stainless steel. Pressed well with rounded edges manufactured from AISI 316 stainless steel. Rightangled side edges to allow flush-fitting junction between units. Includes safety valve to control working pressure. Temperature limiter for power regulation allowing precise temperature cooking. Features autoclave lid with air insulation in the jacket, endowed with watertight rubber gasket, safety valave and a sturdy stainless steel handle, to allow cooking with a slight overpressure (0,05 bar).

Main Features

- Autoclave lid with air insulation in the jacket, watertight rubber gasket, safety valave and sturdy stainless steel handle, to allow cooking with a slight overpressure (0,05 bar).
- Round kettle is suitable to cook, sauté or poach all kinds of produce.
- Produce is uniformly heated in the base and side walls of the kettle by an indirect heating system that uses integrally generated saturated steam at a temperature of 110° C in the jacket.
- External valve allows to manually evacuate excess air accumulated in the jacket during heating phase.
- Appliance is IPX5 water resistance certified.
- Manometer allows to correctly control the functioning of the pan.
- Energy regulation through a control knob.
- Safety thermostat protects against low water level.
- Safety valve avoids overpressure of the steam in the jacket.
- No overshooting of cooking temperatures, fast reaction.
- Large capacity food tap enables safe and effortless discharging of contents.
- Firmly fitting cover to reduce cooking time and save energy costs.
- Ergonomic: the depth of the vessel facilitates stirring the food, also the most delicate food.
- Discharge tube and tap are very easy to clean from outside.
- Closed heating system no waste of energy.
- Solenoid valve to refill with hot and cold water.
- Smooth large surfaces, easy access for cleaning.
- Pressure switch control monitors energy and water consumption.
- The special design of the control knob system guarantees against water infiltration.
- Minimum load for correct funtioning is 20 liters.

Construction

- Kettle shall be double jacketed including high quality thermal insulation of the pan, saving energy and keeping ambient temperature low.
- Pressed cooking vessel and double jacket in 316 AISI Stainless steel.
- Robust burners in stainless steel with flame failure device, protected pilot light and optimized combustion.
- All exterior panels in Stainless Steel with Scotch Brite finishing.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.

Included Accessories

 I of Water additive against corrosion for indirect boiling pans
 PNC 927222
