Full module gas Fry Top with smooth sloped polished chrome cooking Plate, thermostatic control

Short Form Specification

Item No.

Smooth cooking polished chrome surface. 20 kW gas powered burners with thermostatic valve and self stabilizing flame. To be installed on open base installations, bridging supports or cantilever systems. Removable drawer below the cooking surface for the collection of grease and fat. Body and work top of unit entirely in stainless steel with Scotch Brite finish. Extra strength work top in heavy duty 2 mm stainless steel. Right-angled side edges to allow flushfitting junction between units.

Main Features

- Unit to be mounted on open base cupboards, bridging supports or cantilever systems.
- Large drain hole on cooking surface permits the draining of fat into large 1,5 liter collector placed under the cooking surface.
- Safety thermostat with temperature markings for additional safety.
- Stainless steel high splash guards on the rear and sides of cooking surface. Splash guards can be easily removed for cleaning and are dishwashersafe.
- Piezo spark ignition with thermostatic valve for added safety.
- Units have separate controls for each half module of the cooking surface.
- The special design of the control knob system guarantees against water infiltration.
- IPX5 water protection.
- Temperature range from 90° up to 270°C.
- Polished chromium surface avoids the mixing of flavors when passing from one type of food to another.

Construction

- Unit is 930 mm deep to give a larger working surface area.
- All exterior panels in Stainless Steel with Scotch Brite finishing.
- AISI 304 stainless steel worktop, 2mm thick.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- Cooking surface completely smooth.
- Cooking surface 15mm thick polished chrome for optimum grilling results and ease of use.
